**Subject:** Microsoft Settlement

To Whom It May Concern,

I am deeply concerned with the proposed Microsoft Settlement "remedy". I think it should not only be modified to clarify and close loopholes that exist, but it should also address the issue of protection of non-profit software concerns, such as Apache, Linux, and to some extent, Java. Microsoft has never been an innovator and has used, and will continue to use, its monopoly power to stifle innovation.

Regards,

Joseph Shoop
